

## EZ Back VESA Install Instructions:

1. Install the Surface Go 2 into the provided Case.

2. To keep the Surface Go 2 fully charged when deployed, take the charging cable and feed through the center of the EZ Back VESA and route through one of the cable channels. Ensure the charging cable has enough slack to plug into the charging port of the Surface Go 2.

3. Next take the EZ Back VESA, peel the VHB covers from all 4 strips using the finger pull tabs. Then install the EZ Back VESA onto the Surface Go 2 tablet, the Case will act as a template for proper installation.

4. Route the other side of the charging cable through the center of the Radius Floor Stand to manage the charging cable within the Radius Floor Stand.

Lineup the VESA pattern on both the EZ Back VESA, and the Radius Floor Stand – install the provided screws from the underside to secure the Surface Go 2 to the Radius Floor.

Finalize the Radius Floor Stand installation per the provided instructions and setup will be complete.
