

Security Cable Installation Instructions

Kit Includes:

- (1) Clamp
- (1) 4 Foot Cable
- (1) Security Key

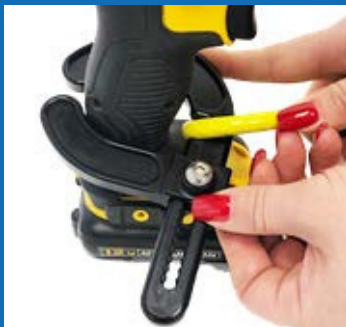

1. Use Security Key to open clamp.

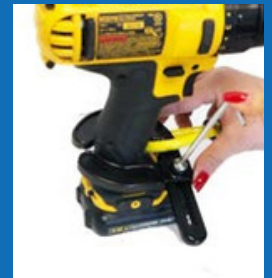

2. Loop cable around item you are securing.

3. Place one end of the cable into notch, located in clamp.

4. Secure by closing clamp to desired width and tightening with Security Key.

Place Security Key in a safe, memorable, easy access location.
