# MTI

Gaming Laptop Bracket

Installation Instructions

1. To mount to fixture, remove wingnuts and washers. Fully extend the legs by using press buttons.

2. Make sure legs are facing forward before mounting the fixture.

3. Align the studs with the fixture holes and insert the bracket into the fixture.

4. Use under counter washers and wingnuts to secure to the fixture.

5. Center the laptop between legs. Align the bottom edge of the left side of the laptop with the crease in the leg.

6. Once the left leg is flush, press in on the right leg to fully secure the device.
