KEY REGISTRATION (Non-Connect) - Complete ALL programming before installing

- 1 Swipe Authorization card to enter enrollment mode. You will hear a double beep tone, indicating enrollment mode has been entered.

- 2 Swipe each User card to lock. A double beep tone indicates a card is now enrolled. Repeat for each user card, up to 250 user cards. If a card fails to be recognized, the lock will emit 4 fast beeps.

- 3 Swipe Authorization card again to close enrollment mode. Enrollment mode times out after 3 minutes of no activity. Lock will emit 4 fast beeps when enrollment has timed out.

DELETING KEYS (Non-Connect Mode Only)

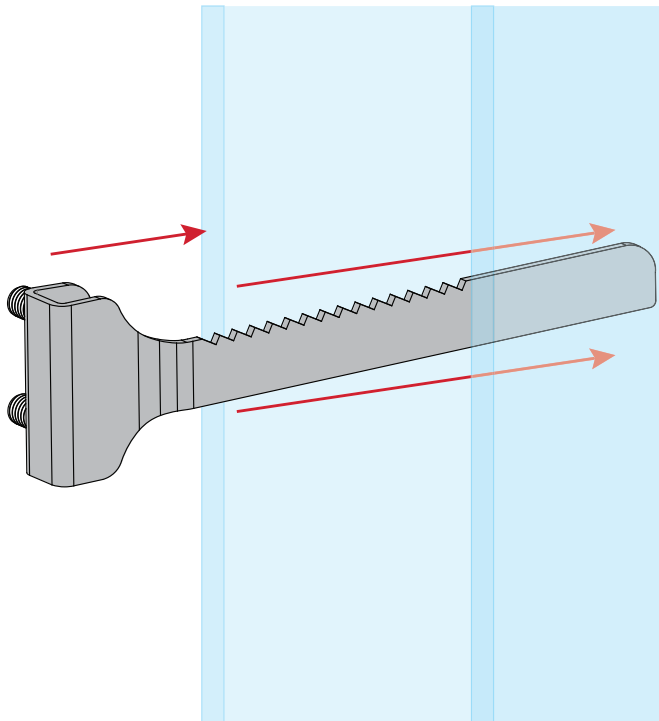

- 1 Hold Authorization Card to lock for 10 seconds.

- 2 After 10 seconds you will hear a double beep, and the whitelist will be cleared. Lock automatically enters key enrollment mode. At least one Versa User Key needs to be added successfully. If no User Key is added during enrollment mode, authorization card will be deleted and lock will return to default mode.

- 1** Slide the lock mount over the back sliding glass door while it is in its closed position.

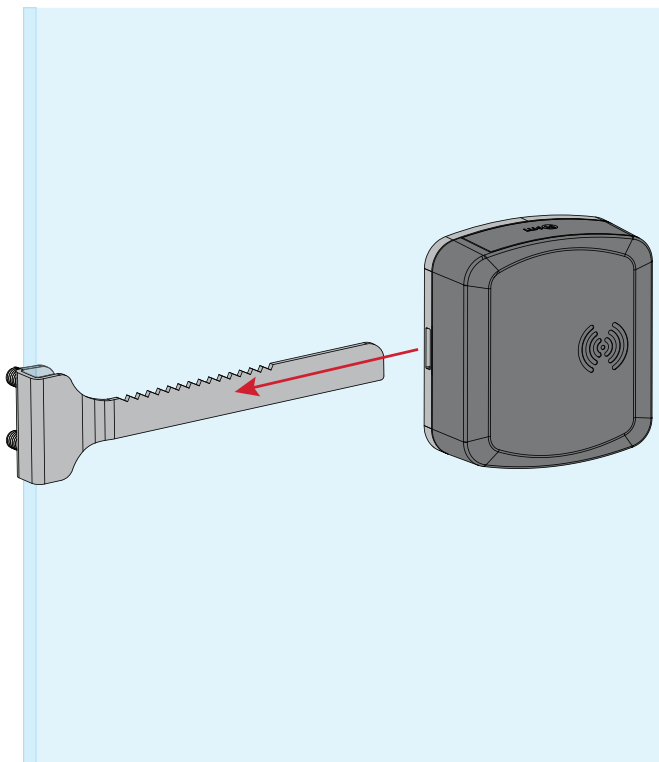

Space devices at least 4" apart.

- 2** Tighten the set screws with hex key

- 3** Slide the front glass door into its closed position and slide the lock over the lock mount blade.

Using the Glass Door Locks:

Place the User Card on the lock. Once you hear a click, slide the lock off of the Glass Latch Bracket to slide the glass doors open. Slide the glass doors closed and replace the lock on the Latch Bracket to relock.

- 1 Insert MTI Connect® IntelliKey™ into Connect Hub for 10 seconds. This will enter pairing mode for 15 minutes.

- 2 Swipe Pairing card to lock. Lock will start slowly beeping confirming it is looking for Connect® network. Upon successfully pairing the lock will emit a double beep. Lock will automatically download key whitelist from network.

Full Connect Hub programming can be found in guide 063-00210

PAIRING VERSA EX

- 1 Place Pairing Card over the RFID icon to place Versa EX in pairing mode. LED will be flashing blue.

- 2 Swipe Pairing card to lock. Lock will start slowly beeping confirming it is looking for Versa EX network. Upon successfully pairing the lock will emit a double beep. Lock will automatically download key whitelist from Versa EX.

Full Versa EX programming can be found in guide 063-00393

Correct Disposal of Product

This marking indicates that this product should not be disposed with other household wastes throughout the EU. To prevent harm to the environment or human health from uncontrolled waste disposal, recycle it responsibly to promote the sustainable reuse of material resources. To dispose of used devices contact MTI Global Services Contact Center at 503-648-6500 or contact local recycling company for proper recycling instructions for electronic devices.

FCC ID: 2AA2X-1500011824**Model: Glass Lock****FCC STATEMENT**

This device complies with Part 15 of the FCC Rules.

Caution: If any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.

The grantee is not responsible for any changes or modifications not expressly approved by the party responsible for compliance. Such modifications could void the user's authority to operate the equipment.

The RF Exposure Compliance distance is 20 millimeters.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

ISED Certification Number: 24439-1500011824**Model: Glass Lock****ISED Statement**

This device complies with Innovation, Science and Economic Development Canada licence-exempt RSS standard(s).

Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

CAN ICES-3(B)/NMB-3(B)

Le présent appareil est conforme aux CNR Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:

(1) il ne doit pas produire de brouillage et (2) l'utilisateur du dispositif doit être prêt à accepter tout brouillage radioélectrique reçu, même si ce brouillage est susceptible de compromettre le fonctionnement du dispositif.

CAN ICES-3(B)/NMB-3(B)

The device meets the exemption from the routine evaluation limits in section 2.5 of RSS 102 and compliance with RSS-102 RF exposure, users can obtain Canadian information on RF exposure and compliance.

Le dispositif rencontre l'exemption des limites courantes d'évaluation dans la section 2.5 de RSS 102 et la conformité à l'exposition de RSS-102 rf, utilisateurs peut obtenir l'information canadienne sur l'exposition et la conformité de rf.

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter. This equipment should be installed and operated with a minimum distance of 20 millimeters between the radiator and your body.

Cet émetteur ne doit pas être Co-placé ou ne fonctionnant en même temps qu'aucune autre antenne ou émetteur. Cet équipement devrait être installé et actionné avec une distance minimum de 20 millimètres entre le radiateur et votre corps.

Technical Data

Operating frequency 125KHz , 2.4GHz : 2405- 2480MHz

Operating temperature: 0° C to 40° C

Max power : 125KHz <42dBuA/m at 10m, 2.4GHz < 20 dBm
