Design

Additional Required Items (not included)

ALCOHOL WIPE	PHONE	FMII TOOL
alcohol wipe		

Step-by-Step Instructions:

STEP 01

Do NOT remove VHB adhesive pad liner when using bracket with with dummy phone!

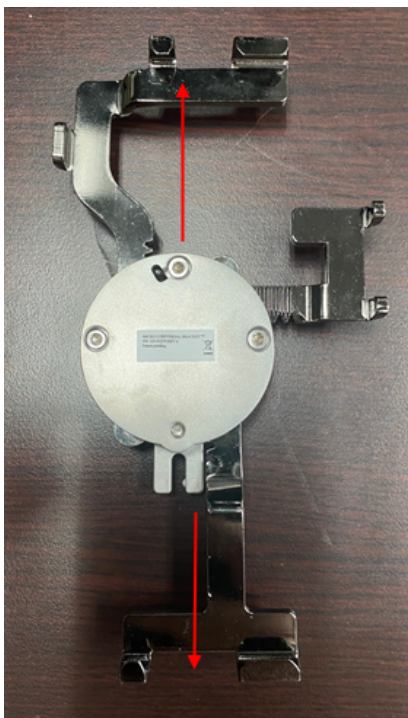

STEP 02

Loosen rear screw(s) of SpeedBracket:

NOTE: Top & bottom arms shall remain fully collapsed through the installation process!

STEP 03

Extend upper and lower bracket arms to allow phone to be inserted:

STEP 04

Install bracket to phone, aligning with side arm as shown below:

Step-by-Step Instructions:

STEP 05 — Press upper and lower arms tightly against phone sides and tighten screw(s). Note: SpeedBracket may have either one or two screws - tighten both, if present.

STEP 06

Install SpeedBracket to riser and rotate into place, until a 'click' is heard. Refer to standard SpeedBracket manual for troubleshooting, as needed.

STEP 07

Plug in phone charging cable.
